

PROUDLY PRESENTS

Trafficware®

SYNCHRO STUDIO 7 TECHNICAL TRAINING SESSIONS

TWO LOCATIONS!

**SEPTEMBER 9, 10 & 11, 2008 IN CALGARY, AB – LEVEL 1 & 2
OCTOBER 14, 15 & 16, 2008 IN SURREY, BC – LEVEL 1 & 2**

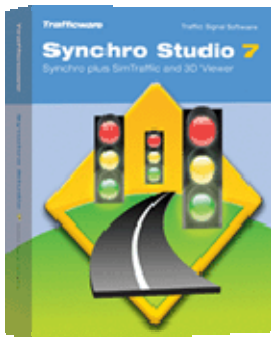

Electromega Ltd. and Trafficware Training Services are proud to present Synchro Studio 7 technical training sessions for Synchro & SimTraffic .

These technical training sessions cover the Synchro traffic signal timing software used to perform capacity analysis and coordination optimization for signalized intersections and the SimTraffic microscopic simulation model (current version).

We will offer 2 levels of training and these training sessions use a combination of information from a professional instructor along with lecture and hands-on examples. Each participant will have a PC workstation with Synchro and SimTraffic installed to use for the hands-on class problems and examples.
